REVISED

A supplement must be attached which addresses each of the following criteria:

- That there are unique physical conditions, including irregularity, narrowness or shallowness of lot or shape, exceptional topography, or other existing features peculiar to the particular lot; and that as a result of such unique physical conditions, practical difficulties and unnecessary hardships arise in complying strictly with the bulk provisions of these regulations.
- The administrative adjustment, if granted, will not alter the essential character of the neighborhood or district in which the subject property is located; will not substantially impair the appropriate use or development of adjacent property; and will not be detrimental to the public welfare.
- That such practical difficulties or hardships have not been created by the owner provided, however, that where all other required findings are made, the purchase of a lot subject to the restrictions sought to be varied shall not itself constitute a self-created hardship.
- That within the intent and purpose of these regulations, the administrative adjustment, if granted, is the minimum necessary to afford relief.
